

Anti Slip Panels

GRIPFAST Anti Slip Panels are a rigid finished product made from durable GRP (glass reinforced polyester) incorporating a 'near-diamond-hard' finish.

The panels are designed to be bonded and mechanically fixed to a structurally sound and level substrate and will provide a guaranteed slip resistant surface for up to 30 years.

Suitable for use on timber, concrete, steel, and open grating, the panels can be supplied in a range of thicknesses, colours and finishes. The panels are suitable for both internal and external use and are resistant to oil, grease and most chemicals.

Product Benefits

- Available in an infinite number of colours and a range of patterns ensures that panels and treads can be optimally matched to the environment.
- Anti slip properties meet the UK guidelines for slip resistance, minimising the risk of slip accidents.
- Design life guarantee of thirty years ensures a long life for an installation
- Colour constant product means that the finished look will not require re-painting
- Panels are tailor-made to specific length and width requirements for optimal fit

Product Thickness

- 2mm, 4mm, 6mm, 9mm, 12mm and bespoke sizes.

Aggregate grades:

- Barefoot, Pedestrian, Heavy Pedestrian, Offshore

Colours

- Any BS or RAL colour available

Finishes

- Plain, Diamond Pattern, Tile Effect, Timber Planking effect,

Maximum size

- 1220mm x 2440mm. panels are grooved and so can be interlocked with an aluminium joining piece to create longer / wider panels.
