

Anti Slip Strips & Cleats

GRIPFAST Anti Slip Strips and Cleats are a rigid finished product made from durable GRP (glass reinforced polyester) incorporating a 'near-diamond-hard' finish.

The strips and cleats are designed specifically for fixing onto slippery timber decking and are designed to be bonded and mechanically fixed to a structurally sound and level substrate and will provide a guaranteed slip resistant surface for up to 30 years.

Available in a range of thicknesses, colours and finishes, cleats and strips are suitable for both internal and external use and are resistant to oil, grease and most chemicals.

Product Benefits

- Available in an infinite number of colours ensures that the appearance of the decking can be optimally matched to its environment.
- Anti slip properties meet the UK guidelines for slip resistance, minimising the risk of slip accidents.
- Design life guarantee of thirty years ensures a long life for an installation
- Colour constant product means that the finished look will not require re-painting

Product Thickness

- 2mm or 4mm

Aggregate grades:

- Pedestrian, Heavy Pedestrian

Colours

- Black, Yellow, Grey

Finishes

- Plain, Timber Effect, Tile Pattern, Diamond Pattern

Maximum single panel size

- 1220mm x 175mm
